COMMUNICATION

Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

On June 10, 2003 the following documents were filed at the United States Patent and Trademark Office (“USPTO”) for the above-referenced application via hand held courier:

- 1.) Transmittal Letter
- 2.) New U.S. Application Claiming Priority to U.S. Application No. 60/387,433,
Filed June 11, 2002
- 3.) Executed Combined Declaration for Patent Application and Power of Attorney
- 4.) Assignment Recordation Form Cover Sheet and Executed Assignment

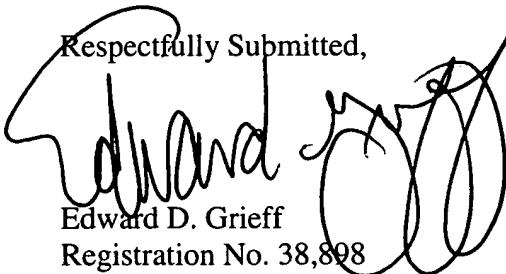

A stamped postcard was returned acknowledging USPTO receipt for these documents. To date, no communication from the USPTO has been received recognizing the above-referenced application. On September 8, 2003, Stephanie Geis, a paralegal at Hale and Dorr, spoke with Monica Young in the Office of Initial Patent Examination at the USPTO to inquire about the status of the application. Ms. Young stated that there was no record of the application at the

USPTO. Ms. Young further stated that they have been experiencing delays due to their efforts to go paperless, not to resubmit the application at that time and that Applicants should receive communication within three weeks.

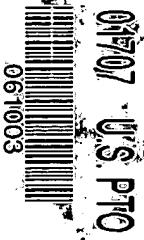

On September 29, 2003, Ms. Geis followed up with Ms. Young since Applicants still had not received any communication from the USPTO regarding the application. Ms. Young reiterated that the USPTO was still experiencing delays and not to resubmit the application at that time.

On November 18, 2003, Ms. Geis followed up with Ms. Young again regarding the status of the application. Ms. Young stated that there was still no record of the application being filed and verified that Deposit Account No. 08-0219 was not charged the total filing fee of \$2,644.00. Ms. Young suggested resubmitting the application with a copy of the stamped postcard verifying USPTO receipt.

Applicants hereby submit copies of all documents filed at the USPTO on June 10, 2003 and a copy of the stamped postcard verifying USPTO receipt. Applicants respectfully request that the above-referenced application be considered for a United States patent and be awarded the June 10, 2003 filing date.

Respectfully Submitted,
